AUTHOR AND TITLE INDEX TO VOLUME 79

In this Index in alphabetical order are the names of the authors of all articles and the presenters of cases in Society Transactions, followed by the title of the article or case presented and the page numbers on which their articles or cases begin. The asterisk (*) preceding the page number indicates an original article, case report, review article, special article, or scientific exhibit.

For Subject Index see page [6].

SUBJECT INDEX TO VOLUME 79

The following Index contains an alphabetical list of significant subjects presented in this volume. Books reviewed are indexed alphabetically by title under the heading "BOOKS." Obituaries and death notices are indexed under the heading "DEATHS." Society transactions are listed under that heading, with individual papers indexed under appropriate headings.

A

ABSTRACTS FROM CURRENT LITERATURE, 398, 530, 661
- anatomy and embryology, 398
- diseases of brain, 530
- diseases of spinal cord, 661
- encephalography, ventriculography, and roentgenography, 666
- meninges and blood vessels, 411
- muscular system, 665
- neuropathology, 404
- peripheral and cranial nerves, 663
- physiology and biochemistry, 399
- psychiatry and psychobiology, 408
- treatment, neurosurgery, 664

Adenoma
- pituitary: surgery vs. radiation in treatment [Horrax], *1

Adrenal gland
- responsivity to corticotropin in schizophrenia [Sheard], *727

Aging
- psychological reactions of aged in surgery: renewal and depletion reactions [Titchener et al.], *63
- psychotherapy in home for aged [Aronson], *671

Allergy
- experimental: effect of midbrain lesion on [Freedman & Fenichel], *164

Amaurotic familial idiocy
- infantile: cephalometric and pneumoencephalographic studies in megalencephalic phase [Aronson et al.], *151

Ambivalence
- perception experiments in study of [Tarachow et al.], 660

American Board of Psychiatry and Neurology, Inc.
- certification of foreign physicians, 657
- examinations, 304

Amygdala syndrome
- effect of hypothalamic lesions on, in cat [Kling & Hutt], *511

Angiography
- use in study of visual apparatus [Sugar], 527

Anticoagulants
- relation between, and hemorrhagic cerebral infarction in experimental animals [Wood et al.], *390

Arteries
- carotid: ligation in treatment of cerebral aneurysms [Shenkin et al.], 301
- retinal: pressure in, in diagnosis of cerebrovascular disease [Rosenbluth], 525

Ascorbic acid
- serum level of, and lag time in oxidation of N,N-dimethyl-p-phenylenediamine in normal controls, psychotic patients, and animals [Aprison & Crosz], *575

Astrocytoma
- circumscribed, of cerebral hemisphere in 4-year-old child [Olsen & Landers], 300

Atropine
- psychopharmacological effects [Callaway & Band], *91

Attention
- broadened: effects of atropine [Callaway & Band], *91
- narrowed: psychological phenomenon accompanying physiological change [Gallaway & Dembo], *74

Awards
- Hofheimer prize, 62

B

Beat phenomenon
- perception of binaural beats in organic and nonorganic patients [Price et al.], *214

Bemegride
- effect on cerebral blood flow and electrical activity of brain [Soederberg], *239

BOOKS
- Annual Survey of Psychoanalysis [Frosch & Ross, eds.], 735
- Atlas of Muscle Pathology in Neuromuscular Disease [Greenfiled et al.], 178
- Auge and Zwischenhirn [Thiel], 542
- Autonomic Nervous System [Feldberg, ed.], 178
- Caricature of Love [Cleckley], 735
- Le delirium tremens [Coirault & Laborit], 122
- Modern Trends in Neurology. Second series [Williams, ed.], 414
- Neuroses and Their Treatment [Podolsky], 736
- Role Relations in Mental Health Professions [Zander et al.], 234
- Troubles mentaux au cours des tumeurs intracraniennes [Hecaen & de Ajuriaguerra], 237
- Die vaskulaeren Erkrankungen in Gebiet der Arteria vertebralis un Arteria basalis [Krayenbuehl & Yasargil], 304

Brain: See also Central nervous system
- aneurysms, intracranial arteriovenous: effect on cardiovascular system [Hook et al.], *622
- aneurysms: ligation of carotid artery in treatment of [Shenkin et al.], 301
- blood flow and electrical activity: effect of bemegride on [Soederberg], *239
- cerebral hemisphere: circumscribed astrocytoma of, in 4-year-old child [Olsen & Landers], 300
- cerebrovascular disease: retinal artery pressure in diagnosis of [Rosenbluth], 525

Brain—continued
changes in cardiac arrest [Mandel & Berry], 301
cortex: etiology and pathogenesis of laminar cortical necrosis [Courville], *7
cortex: functional plasticity in speech areas and integration of speech [Roberts], *275
cortex, temporal: retention of overlearned visual habit after ablation of, in monkey [Chow & Survis], *640
diseases: significance of periodic synchronous discharges in diffuse encephalopathies [Lesse et al.], *359
hematoma, intracerebral: electroencephalogram in [Silverman et al.], 299
hippocampus: memory deficit produced by bilateral lesions in hippocampal zone [Penfield & Milner], *475
hypothalamus: effect of lesions of, on amygdala syndrome in cat [Kling & Hutt], *511
infarction, hemorrhagic: relationship between anticoagulants and, in experimental animals [Wood et al.], *390
injury, focal, acute: experimental study of distant effects [Kempinsky], *376
interrelations of mesial temporal and orbital frontal areas revealed by strychnine spikes [Kendrick & Gibbs], *518
meninges: hemangiopericytoma of [Fisher et al.], *40
midbrain: effect of lesions of, on experimental allergy [Freedman & Fenichel], *164
moniliasis, generalized, with localization in [Eschwege], *250
schistosomiasis: diagnosis [Hammarsten], *132

C

Cardiovascular system
effect of intracranial arteriovenous aneurysms on [Hook et al.], *622

Central nervous system
diseases: effect of induced hyperthermia on [Nelson et al.], *31

Cephalometry
studies in megalencaphalic phase of infantile amaurotic familial idiocy [Aronson et al.], *151

Ceruloplasmin
and N-ethyl-3-piperidyl benzilate hydrochloride: studies [Ostfeld et al.], *317
transferrin, tryptophan, and, in patients with schizophrenia [Frohman et al.], *730

Chlorpromazine
and communication processes [Tourlentes et al.], *468
effects on cat spinal cord [Edisen], *323
with intensive occupational therapy program [Grygier & Waters], *697

Communism and communists
methods of interrogation and indoctrination [panel discussion], 290

Conflicts
psychologic: quantitative method of estimating variations in intensity [Gottschalk & Kaplan], *688

Consciousness
loss of, and convulsions with congenital heart disease [Tyler & Clark], *506

Convulsions
loss of consciousness and, with congenital heart disease [Tyler & Clark], *506

Corticotropin
methacholine and: effect on autonomic and adrenal responsivity in psychiatric patients [Sloane et al.], *549
responsivity of adrenal gland to, in schizophrenia [Sheard], *727

Cortisone
effect on spinal cord regeneration in adult rat [Norman], *170

Cranioplasty
with stainless steel [Scott et al.], 303

D

DEATHS
Horrax, Gilbert, 397
Santha, Kalman, 177
Woods, Andrew H., 175

Deprivation
early, and delayed weaning: effect on avoidance learning in albino rat [Levine], *211
perceptual and sensory: technique for studying psychiatric aspects of stress [Wexler et al.], *225

Diabetes insipidus
following total hypophysectomy in man [Vogel], 659

Diaschisis
experimental study of distant effects of acute focal brain injury [Kempinsky], *376

Dilantin sodium: See Diphenylhydantoin sodium

Diphenylhydantoin sodium
parenteral: use in control of status epilepticus [Carter], *136

DPP: See N,N-dimethyl-p-phenylenediamine

Dreams
psychophysiology: experimental evocation of sequential dream episode [Wolpert & Trosman], *603

E

Electroencephalography
alpha rhythm in sleep and consciousness [Kennard et al.], *328
bilaterally independent sleep patterns in hydrocephalus [Fois et al.], *264
displacement technique [Nelson et al.], *498
electroencephalogram in intracerebral hematoma [Silverman et al.], 299
significance of periodic synchronous discharges in diffuse encephalopathies [Lesse et al.], *359
strychnine spike discharges: interrelations of mesial temporal and orbital frontal areas in man revealed by [Kendrick & Gibbs], *518

Electromyography
changes in myographic activity accompanying narrowed attention [Callaway & Dembo], *74
in localization of herniated lumbar disks [Mendelsohn & Sola], *142

Electroshock therapy
clinical correlates of [Aird], *633

Emotions
classification and rating of emotional experiences, with special reference to reliability of observation [Hamburg et al.], *415
relations of emotional responses and changes in plasma hydrocortisone level after stressful interview [Persky et al.], *434

Encephalomyelitis
due to Newcastle disease, in cats: clinical and pathological features [Luttrell & Bang], *647

Epilepsy
status epilepticus: use of parenteral diphenylhydantoin sodium [Carter], *136

Eyes
pupillary dilatation in normal and schizophrenic subjects following lysergic acid diethylamide ingestion [Freeman], *341

F

Funkenstein test
constancy of [Brill et al.], *716

G

Galvanic skin response
changes accompanying narrowed attention [Callaway & Dembo], *74

Genetics
transmission of metal deficiency [Dekaban], *123

Glioma
of optic nerves [Dodge et al.], *607

H

Heart
arrest, cardiac: brain changes in [Mandel & Berry], 301
disease, congenital: loss of consciousness and convulsions with [Tyler & Clark], *506

Hemangiopericytoma: See under Brain, meninges

Hydrocephalus
bilaterally independent sleep patterns in patients with [Fois et al.], *264

Hydrocortisone
plasma level of: relation of emotional responses and changes in, after stressful interview [Persky et al.], *434

I

Idiocy, amaurotic familial: See Amaurotic familial idiocy

Insulin
coma therapy: effectiveness in treatment of schizophrenia [Patterson], *460

Intervertebral disks: See under Spinal column

Interviews
stressful: relation of emotional responses and changes in plasma hydrocortisone level following [Persky et al.], *434

J

JB 318: See N-ethyl-3-piperidyl benzilate hydrochloride

L

Learning
avoidance, in adult albino rat: effect of early deprivation and delayed weaning on [Levine], *211

LSD-25: See Lysergic acid diethylamide

Lysergic acid diethylamide
analeptic action against pentobarbital [Apter], *711
antagonists: development of tolerance in man to, by prior administration of MLD-41 (1-methyl-*d*-lysergic acid diethylamide), [Abramson et al.], *201
effect on self- and object-size perception in schizophrenics and normal adults [Liebert et al.], *580
pupil dilatation in normal and schizophrenic subjects following ingestion of [Freeman], *341

M

Mecholyl: See Methacholine

Megimide: See Bemegride

Memory
deficit produced by bilateral lesions in hippocampal zone [Penfield & Milner], *475

Mental disease
effect of methacholine and corticotropin on autonomic and adrenal responsivity of patients with [Sloane et al.], *549
group therapy: "Old Timers' Club," autonomous patient group in state mental hospital [Rubin & Eisen], *113
group therapy: psychotherapy with ambulatory schizophrenic patients in mixed analytic groups [Hulse], *681
organic and inorganic: differentiation by binaural beat phenomenon [Price et al.], *214
psychiatric problems of rapidly growing suburb [Gordon & Gordon], *543
psychotherapy: analysis of methods of teaching [Fleming & Hamburg], *179
reductions of symptoms by placebos and short-term psychotherapy [Gliedman et al.], *345

Mental deficiency
recessive transmission to all children by parents similarly affected [Dekaban], *123

Methacholine
and corticotropin: effect on autonomic and adrenal responsivity in psychiatric patients [Sloane et al.], *549
reliability of test: variations in results when performed on same patient by different examiners [Maas], *585

Methamphetamine
effects on cat spinal cord [Edisen], *323

Midbrain: See under Brain

MLD-41 (1-methyl-*d*-lysergic acid diethylamide): See under Lysergic acid diethylamide

Moniliasis
generalized, with localization in brain [Eschwege], *250

Multiple sclerosis: See Sclerosis, multiple

N

Nerves
cranial, fifth: trigeminal neuralgia in multiple sclerosis [Mallin], 298
interosseous, posterior: See Nerves, radial, deep
radial, deep (posterior interosseous): nontraumatic progressive paralysis of [Hustead et al.], *269

N-ethyl-3-piperidyl benzilate hydrochloride
studies with ceruloplasmin and [Ostfeld et al.], *317

Neuralgia
trigeminal, in multiple sclerosis [Mallin], 298

Neurofibroma
spinal: subarachnoid hemorrhage with papilledema due to [Halpern et al.], *138

New York University-Bellevue Medical Center
training fellowship in neuroanatomy and neurophysiology, 657

Newcastle disease
encephalomyelitis due to, in cats: clinical and pathological features [Luttrell & Bang], *647

News and Comment, 62, 304, 474, 657

N,N-dimethyl-p-phenylenediamine
oxidation: lag time in, and ascorbic acid level in normal controls, psychotic patients, and animals [Aprison & Grosz], *575

NP13: See Bemegride

O

Occupational therapy
chlorpromazine used with intensive program: controlled study [Grygier & Waters], *697
dynamic aspects [Wittkower & Azima], *706

"Old Timers' Club"
autonomous patient group in state mental hospital [Rubin & Eisen], *113

Optic nerves
gliomas of [Dodge et al.], *607

P

Papilledema
subarachnoid hemorrhage with, due to spinal neurofibroma [Halpern et al.], *138

Pentobarbital
analeptic action of lysergic acid diethylamide against [Apter], *711

Phenobarbital
reserpine and, versus raunormine in chronic schizophrenia [Turner et al.], *597

Pituitary gland
adenoma: surgery vs. radiation in treatment [Horrax], *1
diabetes insipidus following total removal in man [Vogel], 659

Placebos
reduction of symptoms of mental illness by short-term psychotherapy and [Gliedman et al.], *345

Pneumoencephalography
studies in megalencephalic phase of infantile amaurotic familial idiocy [Aronson et al.], *151

Postgraduate education
termination of training credit for military service in Korean emergency, 304

Prizes: See Awards

Psychotherapy
with ambulatory schizophrenic patients in mixed analytic groups [Hulse], *681
in home for aged [Aronson], *671
methods of teaching: analysis [Fleming & Hamburg], *179
short-term: reduction of symptoms of mental illness by placebos and [Gliedman et al.], *345

R

Radiation
surgery versus, in treatment of pituitary adenomas [Horrax], *1

Raunormine
trial of, versus reserpine and phenobarbital in chronic schizophrenia [Turner et al.], *597

Reflexes
abdominal: reactivation in multiple sclerosis [Greenberg & Brickner], *284

Reserpine
effects of acute and chronic administration on test performance [Riopelle and Pfeiffer], *352
effects on cat spinal cord [Edisen], *323
effects on psychodynamic and social processes [Savage & Day], *590
and phenobarbital versus raunormine: trial in chronic schizophrenia [Turner et al.], *597

Retinal artery: See Arteries, retinal

S

Schistosomiasis
cerebral: diagnosis [Hammarsten], *132

Schizophrenia
ambulatory patients with: psychotherapy in mixed analytic groups [Hulse], *681
ascorbic acid level and lag time in oxidation of N,N-dimethyl-p-phenylenediamine in patients with, in normal controls, and in animals [Aprison & Grosz], *575
ceruloplasmin, transferrin, and tryptophan in patients with [Frohman et al.], *730
chronic: design and conduct of trial of raunormine versus reserpine and phenobarbital in patients with [Turner et al.], *597

Schizophrenia—continued
communication processes of patients with: effect of chlorpromazine on [Tourlentes et al.], *468
criteria distinguishing parents of children with and without [Perr], *217
effect of lysergic acid diethylamide on self- and object-size perception in normal adults and patients with [Liebert et al.], *580
effectiveness of insulin coma in treatment of [Patterson], *460
intrafamilial environment of schizophrenic patient: transmission of irrationality [Lidz et al.], *305
measure of inadequacy of patients with, in making difficult discriminative evaluations [Heath], *675
oculomotor and postural patterns in children with [Pollack & Krieger], *720
patient and therapist observations on circumstances of schizophrenic episode [Weakland et al.], *554
pupil dilatation in normal persons and patients with, following lysergic acid diethylamide ingestion [Freeman], *341
relation between fine and gross psychomotor movement in [King], *427
responsivity of adrenal gland to corticotropin in patients with [Sheard], *727
schizophrenogenic parent: psychiatrists' conceptions of [Jackson et al.], *448
urinary excretion of products of tryptophan metabolism in patients with [Cafruny & Domino], *336

Sclerosis
multiple: effect of induced hyperthermia on [Nelson et al.], *31
multiple: reactivation of abdominal reflexes in [Greenberg & Brickner], *284
multiple: trigeminal neuralgia in [Mallin], 298

Serotonin
effects on cat spinal cord [Edisen], *323

Sleep
alpha electroencephalographic rhythm in, and in consciousness [Kennard et al.], *328
encephalographic patterns during: bilaterally independent patterns in hydrocephalus [Fois et al.], *264

Social-psychiatric problems
psychiatric problems of rapidly growing suburb [Gordon & Gordon], *543
